## AN ETERNITY OF FABULOUS.

The underlying layers of the dermis are the building blocks to beautiful facial and body contours. Morph these building blocks with fractional skin treatments for a more natural and radiant looking contour.

# MORPHEUS8

## AN ETERNITY OF FABULOUS

**Uncover natural  
and youthful contours.**

*"I cannot believe the improvements in my skin after the Morpheus8 treatment. I went out the next day with no problems! Right away I noticed improvements to the deeper lines around my mouth and nose, and my skin feels so much smoother."*

- ROSE, PATIENT

### WHAT IS MORPHEUS8?

MORPHEUS8 is a fractional skin treatment that stimulates collagen production of the underlying layers of the dermis. By targeting the deeper layers of the skin, the building blocks will reorganize themselves in a natural anti-aging process.

### WHAT AREAS CAN BE TREATED?

Morpheus8 can be used on any areas that can benefit from sub-dermal renewal. The most commonly treated areas include the lower face and neck. Areas of the face and body that exhibit wrinkles, discoloration or acne scarring are suitable for treatment.

### HOW MANY TREATMENTS WILL I NEED?

Depending on your Morpheus8 treatment regime you can expect to have between 1-3 sessions.

### HOW QUICKLY WILL I SEE RESULTS?

Visible results can be seen within a few days, but typically after three weeks the most noticeable results appear. Improvements continue up to three months after treatment.

### WHAT IS THE BENEFIT OF FRACTIONATED ENERGY?

Fractionated RF energy is a scientifically proven method to reduce wrinkles and rebuild collagen and fat. It is minimally invasive, using a matrix of micro pins to renew deeper layers of the skin with almost no patient downtime.

### CAN ANYONE USE MORPHEUS8?

The benefit of Morpheus8's color blind technology is that it can be used on all skin types. The unique properties allow even darker tones to be treated.

### WHAT IS THE BENEFIT OF RF ENERGY?

RF energy heats the deep layers of the skin in a controlled way to revitalize the collagen. The treatment will improve skin complexion and texture for a more radiant and youthful appearance.

### CAN THIS BE USED IN COMBINATION WITH OTHER TREATMENTS?

Yes, Morpheus8 can be used in the same treatment session, or a few days after other treatments.

### WHEN CAN I PUT MAKE-UP ON AFTER TREATMENT?

Since patient downtime is minimal, makeup can be applied 1 to 2 days after the treatment. Patients should expect to see micro lesions a few days after treatment and slight redness for up to 1 week depending on treatment parameters.

### WHAT KIND OF POST PROCEDURE CARE IS REQUIRED?

Patients should moisturize the treatment area and avoid direct sun exposure. It is also recommended that patients use a good, broad spectrum sunscreen every day. In addition to reducing their future risk of skin cancer, sunscreens also reduce wrinkles and slow the aging process.

**Please speak to your aesthetic provider to see if you are a candidate.**

Are You Suffering From:

**Dry, Tender Vaginal Tissue?**

**Intense Itching?**

**Bothersome Burning?**

**Painful Intercourse?**

There is no longer a reason to suffer through vaginal discomforts and pain. Seek relief and speak with your doctor about the Selene Touch Laser today! Get on with your life!

*Financing Available*

## What is Selene Touch?

The Selene Touch is a state-of-the-art laser providing a quick treatment of the vaginal wall. In less time than an annual exam, you will be able to address your vaginal health concerns and get on with your life!

## How does it work?

Selene Touch uses gentle pulses of micro-ablative laser energy to stimulate the tissue for an increase in collagen, with little to no discomfort or downtime.

## How quickly will I have results?

Creams, pills and tablets must be taken daily, are messy and take time to work. Many patients experience some relief after just one Selene Touch treatment.

## How many treatments?

After the first treatment, you will be scheduled for two additional appointments 4-6 weeks apart. You may also choose to come in for an annual follow-up.

**Take the Vaginal Health Quiz  
and talk with your doctor  
about how the Selene Touch  
Laser can benefit you!**

## Vaginal Health Quiz

**I find that vaginal discomfort/dryness affects me:**

1. Definitely
2. Somewhat
3. Minimally
4. Not at all

**How confident are you about becoming fully lubricated during sexual activity or intercourse?**

1. No confidence
2. Low confidence
3. Moderate confidence
4. Very confident

**Has your sexual relationship with your partner been affected due to the natural aging process?**

1. Definitely
2. Somewhat
3. Minimally
4. Not at all

**What is your level of sexual desire?**

1. Very low
2. Low
3. Moderate
4. Very High

**How would you rate your vaginal tightness?**

1. Very loose
2. Moderately loose
3. Moderately tight
4. Very tight

**Do you experience urinary leakage/urgency?**

1. Usually
2. Sometimes
3. Rarely
4. Never

If you scored a "1" or "2" on any of the questions above, share this quiz with your doctor to discuss the new treatment options available.

## Time to Regain Control of Your Vaginal Health and Get on with Your Life!

Are you experiencing a loss of control in the intimate areas of your life? Do you rely on creams, lotions and pills to provide relief for your vaginal discomforts? Or do you just suffer through it all?

Symptoms of discomforts can include:

# TRITON

**ACHIEVE THE SMOOTH AND SOFT SKIN THAT YOU'VE ALWAYS WANTED. PERFECT FOR ALL AREAS OF THE BODY, HEAD TO TOE!**

## HOW DOES TRITON WORK?

During treatment, laser beams of the most common hair removal wavelengths (diode, alexandrite, or yag) pass through the skin targeting the hair follicles. The penetrating energy then heats up the root of the hair, which in turn prevents future hair growth.

## WHAT IS THE BENEFIT OF TRITON HAIR REMOVAL?

Unlike traditional methods (waxing, shaving, bleaching or using depilatory creams), Triton laser hair removal impacts the root of the problem, rather than offering a temporary solution. Traditional methods will require continuous treatments, while Triton only requires a few sessions for reduction in hair growth and smooth and hair-free skin. Triton is the first and only FDA cleared device to have simultaneous firing of multiple wavelengths on a hair removal machine.

## THE ULTIMATE SOLUTION TO GETTING RID OF UNWANTED HAIR!

*"I finished my treatments just in time for a vacation and I can't begin to tell you how freeing it is to not have to shave every time I want to show off my legs. My skin is always smooth and ready to go."*

- JENNIFER, PATIENT

## WHAT TECHNOLOGIES ARE ON TRITON?

Triton has multi-wavelength hair removal energies that work simultaneously to treat a wide range of hair removal concerns. These options assure patients that Triton will be a suitable solution for their individual hair removal needs.

**All hair removal concerns can be treated with this innovative, effective and unique treatment:**

- Light hair or skin
- Dark hair or skin
- Fine or coarse hair
- Medium complexion and thickness
- Stubborn hair
- Large body areas that require quick treatment times
- Small sensitive areas

## HOW MANY SESSIONS ARE REQUIRED?

Hair is reduced with each treatment and results are observed after four to six sessions. The number of sessions will differ depending on your hair color, hair type, body area, and skin tone.

## WHY DO I NEED MULTIPLE TREATMENTS TO ACHIEVE HAIR REMOVAL?

All laser hair removal works best when hair follicles are in their mature stage; however, at any given time your hair is in various stages of growth. By treating in multiple sessions, you can be assured you are targeting the hair at the right time for permanent destruction.

**Ultra fast hair removal, treat both legs in as little as 20 – 30 minutes!**

**Please speak to your aesthetic provider to see if you are a candidate.**

## The Power of Sound

UltraShape Power is the first and only FDA-cleared non-surgical procedure that uses pulsed, focused ultrasound for fat cell destruction. UltraShape Power painlessly destroys fat cells without harming surrounding skin, nerves or blood vessels.

Less time. Less pain. Less fat.

Unlike other fat-reduction procedures that use heat or freeze fat, UltraShape Power treatments are virtually painless and leave you free of any unwanted visible side effects. All you're left with is smooth, contoured results. So you can hit the doctor's office, then hit your yoga class in a crop top on the same day.

## Powerful Results

- Typical regimen features three treatments spaced two weeks apart.
- Most people describe UltraShape Power as a pleasant, even relaxing, experience.
- There's no soreness or numbness after treatment, and side effects are extremely rare.
- No wonder so many people are satisfied with their results.

Before and after photos are un-retouched and represent patients who have had significant results. Individual results may vary. Photos courtesy of R. Amir, M.D.

## Virtually Painless

Ultrasound means no incisions, anesthetics, or recovery time. A virtually painless treatment with an average reported pain level of only 0.7 on a scale of 0-10.

## No Downtime

Get back to living your life with no downtime or visible signs of treatment.

*"I've worked so hard to make this change happen myself, but it wouldn't have been possible without the help of this treatment. The procedure was incredibly easy and very comfortable. After about a week, I'm already noticing a change! My mid-section is tighter and already looking flatter! I couldn't be happier!"*

## The Power of Sound

UltraShape Power is the first and only cleared non-surgical procedure that uses pulsed, focused ultrasound for fat cell destruction. UltraShape Power pairs ultrasound with a non-invasive procedure that destroys fat cells without harming skin, nerves or blood vessels.

## The Science Behind the Slimming

UltraShape® Power delivers ultrasound energy directly into the stubborn fat below your skin's surface.

Rapidly changing pressure waves cause the targeted fat cells to rupture, releasing triglycerides that are processed by the liver and eliminated naturally.

UltraShape Power's fat destruction, when combined with a healthy lifestyle, can deliver the body you've worked hard for.

Take Charge of Your  
Health & Wellness

Ask your physician today  
about Votiva.

Votiva with FormaV is a therapeutic device for the treatment of sexual dysfunction or as an adjunct to Kegel exercises (tightening of the muscles of the pelvic floor to increase muscle tone). Votiva with FractoraV, is a fractional treatment promoting tissue remodeling.

# VOTIVA

## VOTIVA IS A PROCEDURE BASED ON FDA CLEARED TECHNOLOGIES

## WOMEN'S HEALTH & WELLNESS

*"It's been two weeks now that I've had Votiva done, and I can see a noticeable improvement across the board. I'm really excited about the results thus far."*

- KELLY | AGE 56

### WHAT IS VOTIVA?

Votiva is a procedure for women's health and wellness, combining gentle volumetric heating with fractional treatment. Votiva with FormaV is a therapeutic device for the treatment of sexual dysfunction or as an adjunct to Kegel exercises (tightening of the muscles of the pelvic floor to increase muscle tone). Votiva with FractoraV, is a fractional treatment promoting tissue remodeling.

### HOW DOES VOTIVA WORK?

Votiva uses up to two complimentary technologies to address your health and wellness concerns. Votiva with the FormaV handpiece, gently and uniformly heats the treated tissue, reducing pain and tightening the pelvic floor muscles. Votiva with the FractoraV handpiece is a fractional treatment that remodels tissue.

During a pre-consultation, your physician will speak to you regarding your concerns and expectations. At this time, they will develop a tailored treatment plan that can include either one, or both devices.

### WHAT CAN I EXPECT?

During a treatment, a small wand is applied to the problem area, and delivers safe and effective heat.

### HOW MANY SESSIONS ARE REQUIRED?

Your physician will determine the best course of therapy for you. Most patients undergo 2-3 treatment sessions.

### WHAT IS THE DOWNTIME?

The total procedure is only a few minutes, with little to no discomfort or downtime.

Ask your physician if Votiva is right for you.
